

Doc Number 2101660 Revision 05

This Declaration of Conformity is issued under the sole responsibility of the manufacturer. The device(s)/accessories covered by this Declaration are in conformity with all regulations or directives below.

#### 1. Object of the declaration:

Product Name:	SimplyGo Mini Accessories		
Product Type:	Portable Oxygen Concentrator Accessories		
Intended Purpose:	GMDN 34158 Battery, Secondary  A device (battery or cell) used as a source of electrical energy that is designed to be electrically recharged. The size, shape, and chemical composition of the battery should be specified in keeping with the requirements of the appropriate IEC standard.		
	GMDN 17115 Battery Charger A device designed to supply an electrical charge to rechargeable batteries, restoring the battery to an appropriate working condition. This device is typically connected to the building's electrical power supply and can be used to either charge the batteries by themselves (removed from the device) or whilst they are still inside the parent device (in situ), e.g. a defibrillator or ophthalmoscope. This device usually has current and voltage controls to meet the charge needs of different types of batteries.
